ready for receipt by a courier transporting select agent(s) or toxin(s) and ends when the package is received by the intended recipient who is an individual approved by the HHS Secretary or Administrator to have access to select agents and toxins, following a security risk assessment by the Attorney General.

- (i) The recipient must submit a completed APHIS/CDC Form 2 within two business days of receipt of a select agent or toxin.
- (j) The recipient must immediately notify CDC or APHIS if the select agent or toxin has not been received within 48 hours after the expected delivery time, or if the package containing select agents or toxins has been damaged to the extent that a release of the select agent or toxin may have occurred.
- (k) An authorization for a transfer shall be valid only for 30 calendar days after issuance, except that such an authorization becomes immediately null and void if any facts supporting the authorization change (e.g., change in the certificate of registration for the sender or recipient, change in the application for transfer).
- (1) A registered individual or entity transferring an amount of a HHS toxin otherwise excluded under the provisions of §73.3(d) must:
- (1) Transfer the amounts only after the transferor uses due diligence and documents that the recipient has a legitimate need (e.g., prophylactic, protective, bona fide research, or other peaceful purpose) to handle or use such toxins. Information to be documented includes, but is not limited, to the recipient information, toxin and amount transferred, and declaration that the recipient has legitimate purpose to store and use such toxins.
- (2) Report to CDC if they detect a known or suspected violation of Federal law or become aware of suspicious activity related to a toxin listed in §73.3(d) of this part.

[70 FR 13316, Mar. 18, 2005, as amended at 77 FR 61115, Oct. 5, 2012; 79 FR 26862, May 12, 2014; 82 FR 6294, Jan. 19, 2017]

§ 73.17 Records.

(a) An individual or entity required to register under this part must maintain complete records relating to the activities covered by this part. Such records must include:

- (1) An accurate, current inventory for each select agent (including viral genetic elements, recombinant and/or synthetic nucleic acids, and organisms containing recombinant and/or synthetic nucleic acids) held in long-term storage (placement in a system designed to ensure viability for future use, such as in a freezer or lyophilized materials), including:
- (i) The name and characteristics (e.g., strain designation, GenBank Accession number, etc.),
- (ii) The quantity acquired from another individual or entity (e.g., containers, vials, tubes, etc.), date of acquisition, and the source,
- (iii) Where stored (e.g., building, room, and freezer or other storage container),
- (iv) When moved from storage and by whom and when returned to storage and by whom.
- (v) The select agent used, purpose of use, and, when applicable, final disposition.
- (vi) Records created under §73.16 and 9 CFR 121.16 (Transfers),
- (vii) For intra-entity transfers (sender and the recipient are covered by the same certificate of registration), the select agent, the quantity transferred, the date of transfer, the sender, and the recipient, and
- (viii) Records created under §73.19 and 9 CFR part 121.19 (Notification of theft, loss, or release),
- (2) An accurate, current accounting of any animals or plants intentionally or accidentally exposed to or infected with a select agent (including number and species, location, and appropriate disposition):
- (3) Accurate, current inventory for each toxin held, including:
- (i) The name and characteristics,
- (ii) The quantity acquired from another individual or entity (e.g., containers, vials, tubes, etc.), date of acquisition, and the source,
- (iii) The initial and current quantity amount (e.g., milligrams, milliliters, grams, etc.),
- (iv) The toxin used and purpose of use, quantity, date(s) of the use and by whom.

§73.18

- (v) Where stored (e.g., building, room, and freezer or other storage container).
- (vi) When moved from storage and by whom and when returned to storage and by whom including quantity amount,
- (vii) Records created under §73.16 and 9 CFR part 121.16 (Transfers),
- (viii) For intra-entity transfers (sender and the recipient are covered by the same certificate of registration), the toxin, the quantity transferred, the date of transfer, the sender, and the recipient,
- (ix) Records created under §73.19 and 9 CFR part 121.19 (Notification of theft, loss, or release), and
- (x) If destroyed, the quantity of toxin destroyed, the date of such action, and by whom,
- (4) A current list of all individuals that have been granted access approval from the HHS Secretary or Administrator,
- (5) Information about all entries into areas containing select agents or toxins, including the name of the individual, name of the escort (if applicable), and date and time of entry,
- (6) Accurate, current records created under §73.9 and 9 CFR part 121.9 (Responsible Official), §73.11 and 9 CFR part 121.11 (Security), §73.12 and 9 CFR part 121.12 (Biosafety), §73.14 and 9 CFR part 121. 14 (Incident response), and §73.15 and 9 CFR part 121.15 (Training), and
- (7) A written explanation of any discrepancies.
- (8) For select agents or material containing select agents or regulated nucleic acids that can produce infectious forms of any select agent virus that have been subjected to a validated inactivation procedure or a procedure for removal of viable select agent:
- (i) A written description of the validated inactivation procedure or viable select agent removal method used, including validation data;
- (ii) A written description of the viability testing protocol used;
- (iii) A written description of the investigation conducted by the entity Responsible Official involving an inactivation or viable select agent removal failure and the corrective actions taken:

- (iv) The name of each individual performing the validated inactivation or viable select agent removal method;
- (v) The date(s) the validated inactivation or viable select agent removal method was completed:
- (vi) The location where the validated inactivation or viable select agent removal method was performed; and
- (vii) A certificate, signed by the Principal Investigator, that includes the date of inactivation or viable select agent removal, the validated inactivation or viable select agent removal method used, and the name of the Principal Investigator. A copy of the certificate must accompany any transfer of inactivated or select agent removed material.
- (b) The individual or entity must implement a system to ensure that all records and data bases created under this part are accurate and legible, have controlled access, and authenticity may be verified.
- (c) The individual or entity must promptly produce upon request any information that is related to the requirements of this part but is not otherwise contained in a record required to be kept by this section. The location of such information may include, but is not limited to, biocontainment certifications, laboratory notebooks, institutional biosafety and/or animal use committee minutes and approved protocols, and records associated with occupational health and suitability programs. All records created under this part must be maintained for 3 years.

[70 FR 13316, Mar. 18, 2005, as amended at 77 FR 61115, Oct. 5, 2012; 82 FR 6294, Jan. 19, 2017]

§ 73.18 Inspections.

- (a) Without prior notification, the HHS Secretary, shall be allowed to inspect any site at which activities regulated by this part are conducted and shall be allowed to inspect and copy any records relating to the activities covered by this part.
- (b) Prior to issuing a certificate of registration to an individual or entity, the HHS Secretary may inspect and evaluate the premises and records to ensure compliance with this part.
